

Welcome to Class 2

In Class Two there are currently ten Year 7 pupils, who work in a range of situations including whole class, collaborative group and individual learning, and working both independently and with adults. Pupils can choose whether to sit with their peers at a table or at an individual workstation. Pupils are supported by 2 Speech and Language Therapists, one Occupational Therapist, A part-time Educational Psychologist and two full time teaching and learning assistants.

Our day begins with meeting time when we use visual timetables to go through the day ahead, giving pupils opportunity to ask questions and share any news. We also watch Newsround to keep up to date with events in the world.

In Class 2, we have six lessons a day and these are mostly taught by the class teacher. Mrs Florian teaches class 2 four lessons each week. We have maths and literacy daily. We also have a fine and gross motor skills session once a week led by the Occupational Therapist. On a Tuesday, Wednesday and Thursday we have Enrichment activities at the end of the day. The pupils choose these activities from a range of choices which are changed each term.

We strive to meet the individual needs of pupils both within lessons and through intervention programmes that develop literacy and numeracy skills and address social, speech, language and physical needs.
